

A HOME
FROM
THE FUTURE!

Intelligent Homes opposite Eco Park , New Town

Elegant homes from different eras strut
across our memories like notes on a musical
scale.

WHAT IS NEXT?

The evolution of residential architectural
design seems to have gone on a sabbatical in the past couple of decades...

the Gothic columns, the Greek revival,
homes in vivid pastels exuding grace,
Georgian symmetry
or the Italian grandeur.

ICONIC ARCHITECTURE

When we sat on the drawing board, we wanted to create something extraordinary, which would be seen as a modern home built with an out of the box design concept.

We wanted to introduce contemporary architecture in a historic core and make it breathtakingly beautiful.

We were quite adamant in creating something which could be a landmark by its sheer presence.

FUTURISTIC LIVING!

Having injected dollops of innovation into the design, we wanted to do more.

We wanted to mix aesthetics with **cutting edge technology!**

We **partnered with the world's leading brand** to integrate hi-technology features to introduce an ultra modern lifestyle which is the first of its kind in Kolkata!

AND THUS DREAM ONE WAS BORN

A modern day architectural wonder it transports you from sea level to a higher plane for an out of the world experience.

You are left to simply gaze at the awesomeness of the architectural form as you soak and imbibe it completely.

DREAM ONE is Kolkata's most technologically advanced home built on a foundation of cutting edge science which enables seamless information between apartment residents for socializing, provides round the clock vigilance of your asset, even bringing it on to your smart phones and pampers you with features that leaves a smile on your face!

"When you choose Hager, leader in electrical solutions for residential and commercial segments, you get access to our innovative solutions. We watch the market, listen to your needs, and make products easier to install and use."

🎯 HOME AUTOMATION

DREAM ONE - THE INTELLIGENT HOME

When you're not home, nagging little doubts can start to crowd your mind. Did I set the security alarm? Are the kids doing their homework or watching television? Did I turn the lights off?

With the intelligent home, you could quiet all of these worries with a quick glance at your smartphone or tablet. You could connect the devices and appliances in your home so they can communicate with each other and with you.

You give a command by remote control, tablet or smartphone, and your home reacts!

Remote Door Control

Open or close the door with a single tap on the tablet!

Curtain Control

Adjust your blinds without reaching the windows!

Mood lighting

Let your mood control the lights of your home with a tap!

Emergency/Panic Buttom

With the touch of a button reach out to emergency services!

Home Profile-Master Switch

Create profiles with preset settings.

Pre Scheduled Video

Watch Pre Set scheduled movies in privacy with your family.

Fire & Gas Alarm

This alarm keeps you and your family safe from any mishap!

Video Door Phone

You will know who's arrived on the door on your console itself while relaxing on the couch!

MASTER CONTROL

DREAM ONE apartments are provided with a master control dashboard on your tablet, using which every aspect of the home automation features can be monitored, controlled and managed.

IP ENABLED CAMERA

These cameras relay live images on the internet protocol backbone thereby letting you keep a close vigil on your home when you are out anywhere in the world.

You can watch over your kids on your smartphones or * workstations while you are in office. It provides a huge peace of mind that all is well at home.

* Optional

Automated homes in east

Kolkata, Nov. 17: Real estate developer Jain Group today launched the first smart home in New Town, Kolkata. This is also the first such project in the east.

DREAM One — the 3.2-acre residential project — has been designed with home automation, which includes centralised control of lighting, security, heating, ventilation, air conditioning and other systems.

"DREAM One is eastern India's most technologically advanced home which enables seamless integration and connection between residents and their apartments by providing round the clock vigilance of assets through an app from any tablet or smart phone," said Rajat Jain, executive director of Jain Group, here.

Hager Group, a leading provider of solutions and services for electrical installations, has partnered with Jain Group for this project. "DREAM One, the exclusive home automation app developed by the Germany-based company, will be used in the 330-acre project."

It will have a master control dashboard, using which every aspect of the home automation features can be monitored and managed. This will include centralised control, emergency or panic button, fire & gas alarm and more. The app will be available for download on Android, iOS and Windows platforms.

DREAM One will have a total of 220 flats, including two, three and four bedrooms.
